Youki Kadobayashi, Ph.D.

Professor

Laboratory for Cyber Resilience

**Nara Institute of Science and Technology
(NAIST), Japan**

Lecture Title: Introduction to cybersecurity

Schedule: 10:30 AM - 11:30 AM BST

Synopsis:

As the society continues to harness almost every aspect of business, cultural and social activities with digital technologies, cybersecurity is widely recognized as one of the enabling pillars for further development of our society in this digital age.

In this lecture, we invite audience to start engaging in cybersecurity today, rather than becoming cybersecurity professional in distant future. Through this lecture, we hope that each audience will understand: 1) the relevance of cybersecurity to his/her day-to-day activities, as well as 2) the broad spectrum of study opportunities and research opportunities where your current, diverse specialization can be a valuable asset.

Bio:

Prof. Youki Kadobayashi works for the Laboratory for Cyber Resilience at Nara Institute of Science and Technology, where he collaborates with brilliant talents from diverse countries and background. He also assists some of the key national agencies for improving cybersecurity through standardization and training activities.

Daisuke Miyamoto, Ph.D.

**Associate Professor
Graduate School of
Information Science and
Technology**

**The University of Tokyo,
Japan**

**Lecture Title: Human Factors
in Cybersecurity**

**Schedule:
11:30 AM - 12:30 PM BST**

Douha N'guessan Yves Roland

Ph.D. Student

**Laboratory for Cyber
Resilience**

**Nara Institute of Science and
Technology (NAIST), Japan**

**Lecture Title: EBIOS RISK
MANAGER– Analysis of
Stakeholders Threat Level**

**Schedule:
12:30 PM - 1:15 PM BST**

Md. Delwar Hossain, Ph.D

**Assistant Professor
Laboratory for Cyber
Resilience**

**Nara Institute of Science and
Technology (NAIST), Japan**

**Lecture Title: Deep Learning-
based Intrusion Detection
Systems for In-vehicle CAN
Bus Communication**

**Schedule:
2:15 PM - 3:00 PM BST**
